Subject: Chasing after mods for FT712RH ?
To: ham-equip@ucsd.edu

I am chasing after the mods required to get the Yaesu FT712RH to
transmit in the frequency range of 440 to 450 Mhz. I can find the mods
for just about every other radio, except this one. Does anybody have
any ideas ?
Thanks.

  Joe.

Subject: FT-530 Cloning ?
To: ham-equip@ucsd.edu

According to the schematics the Yaesu FT-530 has a cloning
pin on the External speaker jack. Does anybody out there know
the magical key sequence to activate it ?

          Thanx, & 73 de Denis VE2ILF

  I'm looking seriously at purchasing a TM-742A with the 10m module for the
3rd band. I've found numerous mod files for the 741 and was wondering if they
would also apply to the 742A since the *seem* to be basically the same radio.
Anyone know more about this?

-Jason
